### **We call on all Jews to gather and stand up for themselves against the danger of the multi-front war**

Recently, the threat of war from the north and additional fronts has intensified—a war that may involve both missile attacks and an infantry invasion. Security experts warn that in such a scenario, the military will not be able to protect all communities. Therefore, we urge all Jews to *assemble and stand in defense of their lives*. Every community must organize for self-defense.

Specifically:

1. **Anyone who is able should obtain a firearms license and train in its use.**
2. **Those unable to obtain a firearms license are encouraged to join a shooting club.**
3. **To prepare for potential disruptions in electricity supply, everyone is advised to acquire solar panels, dynamo bicycles, and large batteries for energy storage.**

We call on community leaders, mayors, rabbis, and anyone with influence to awaken their communities to the need for self-defense.
